MOBILE HEIGHT ADJUSTABLE TABLE

LABMODUL

HEIGHT ADJUSTABLE MOBILE TABLE

- Good ergonomics
- Flexible devices
- Optimal mobility

Mobile height adjustable workplaces

Flexible devices

The mobile tables can be adjusted so the working height can be adjusted steplessly to the optimal height for the required purpose. Mobile height adjustable tables provide ergonomically correct working positions and flexibility when operating high-end equipment and devices at workplace or multi-user locations.

The tables are supplied as powder coated steel and in acid-proof stainless steel. The constructions meet requirements for use in GMO areas. Mobile height adjustable tables are offered in many standard sizes and in special dimensions where this is needed.

Mobile height adjustable tables are a useful feature that makes the workday significantly more comfortable and increases the health of the workplace. When used with the KITE furniture system, a very flexible working environment is obtained.

Contact us and we can help you find the right solution for the workplace.

4 support mobile table

Mobile 4-support height ajustable table with electric height control and with a construction for use also in GMO facilities. The tables are offered with and without lower shelf or for the suspension of underbenches.

The electric height adjustment can also be supplied with battery back-up so that the benefits of the lifting function can be used anywhere without being connected to power.

Frame is available in powder coated steel color RAL9016 or as shown in the picture in acid-proof stainless steel AISI316.
